

**PROPELS YOU FORWARD AND  
BACKWARD THROUGH TIME.**

Let a coal-fired steam engine take you to another century and beyond. Into an unspoiled West of simplicity, natural beauty, and authenticity. Climb aboard our national historic landmark in Antonito, Colorado or Chama, New Mexico and spend the day on America's best scenic railroad. See the dappled mountain sunlight. Feel the rails underneath you. Hear the whistle linger in the canyons. It's an experience that's completely at odds with the modern world. And better for it.

# SAVOR THE RIDE.

Get ready for a journey you'll never forget. From the San Juan Mountains to the Conejos Valley, the Cumbres & Toltec Railroad takes you along 64 scenic miles. You'll zig zag along the Colorado and New Mexico border through steep mountain canyons, the high desert, and lush meadows. You'll become a part of the pristine landscape and this engineering feat that has triumphed since 1880.

Your ride will begin in either Antonito, Colorado, or Chama, New Mexico. The train travels in both directions so you can either start your day on the train and end with a chauffeured luxury motor coach ride back to your car, or reverse the order of events. The luxury motor coach ride is just under an hour long and is a relaxing transition to or from your destination. A shorter ride experience is available when you stop at Osier and return via another train heading back to your original starting point.

Our season starts Memorial weekend, after the snow has melted and the wildflowers are in bloom. Bookings continue through the spectacular golden fall foliage into late October. Whenever you ride in summer or fall, you'll enjoy spectacular scenery, wildlife, and the fresh air of the open gondola car. We offer many special event train excursions throughout the season. Please visit our website at [cumbrestoltec.com](http://cumbrestoltec.com).
