USA TODAY READER'S CHOICE

CUMBRES & TOLTEC
SCENIC RAILROAD 2020

VOTED #1 SCENIC TRAIN

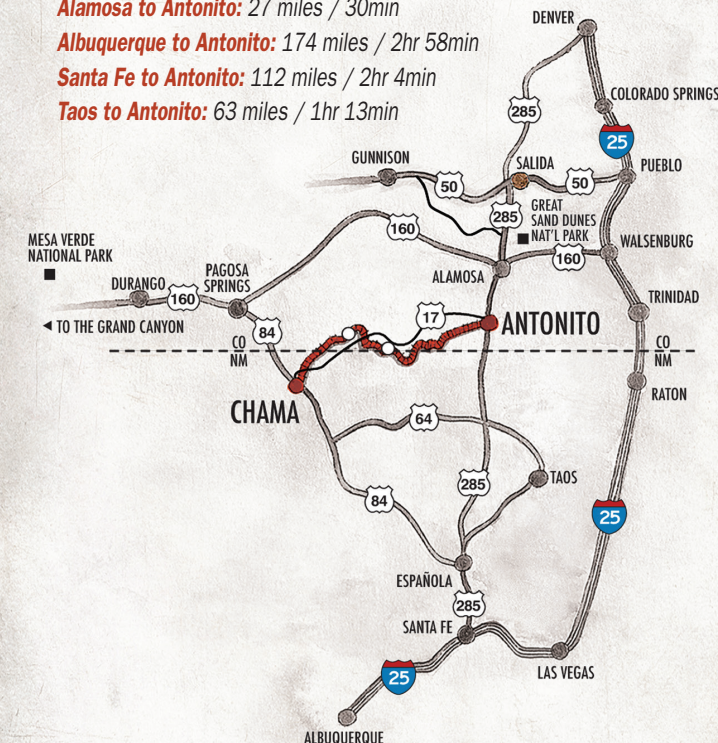

LIFE IS SHORT. RIDE LONG.

Let a coal-fired steam engine take you to another century and beyond. Travel into an unspoiled West of simplicity, natural beauty, and authenticity. Climb aboard our national historic landmark in Antonito, Colorado or Chama, New Mexico and spend the day on America's best scenic railroad. See the dappled mountain sunlight. Feel the rails underneath you. Hear the whistle linger in the canyons. It's an experience that's completely at odds with the modern world. And better for it.

2020 SCHEDULE

SAVOR THE RIDE.

Get ready for a journey you'll never forget. From the San Juan Mountains to the Conejos Valley, the Cumbres & Toltec Railroad travels 64 scenic miles. You'll wind along the Colorado and New Mexico border through steep mountain canyons, high deserts and lush meadows. Become a part of the pristine landscape and experience an engineering marvel unchanged since 1880.

Your ride begins in either Antonito, Colorado or Chama, New Mexico. The train travels in both directions so you can either start your day on the train and end with a chauffeured luxury motor coach ride back to your car, or reverse the order of events from either depot. The luxury motor coach ride is an hour long and is a relaxing transition to or from your train departure point. A shorter ride experience is available when you stop at Osier, change trains and head back to your original departure point.

Our season begins Memorial Day weekend, after the snow has melted and the wildflowers are in bloom. The trains run through the third week of October. Whether you ride in summer or fall, you'll enjoy dramatic, eye catching scenery, wildlife, and the fresh air of the open gondola car. We offer many special event train excursions throughout the season. Early booking is recommended to view the spectacular golden fall foliage. Visit our website at cumbrestoltec.com for schedules.
